Meredith,

I understand that Chuck Levey has responded on Syngenta's behalf indicating that we received your email. One question has surfaced. Is there any chance we could get the two label documents in a word version? Our label folks have indicated the word version would be easier to work with and could save some time and effort as well as insure accuracy if we started from the Agency's document. I said I was not sure you would be able to satisfy this request but I would check on this; so here I am.

Thanks and have a good weekend.

John

Dear Registrants & Agents:

This is a follow-up to the July 22, 2013 letter from Dr. Steven Bradbury, Director of EPA's Office of Pesticide Programs. Please read the attached letter and note the two additional documents that comprise labeling for your products, as discussed in the letter.

Please acknowledge receipt of this email within 48 hours.

Thank you,

Meredith Laws
